PROFESSIONAL SUMMARY

Computer Science graduate and Python Full-Stack Developer with hands-on experience in end-to-end web application development using Python, Flask, FastAPI, React.js and JavaScript. Skilled in REST API development, API integration, authentication and database design with SQL, MySQL, PostgreSQL and SQLAlchemy. Experienced in AI/LLM integration using LangGraph and Groq LLM. Immediate joiner.

TECHNICAL SKILLS

Programming: Python, JavaScript (ES6+), SQL, HTML5, CSS3
Backend: Flask, FastAPI, RESTful APIs, SQLAlchemy ORM, Authentication, API Integration
Frontend: React.js, Redux Toolkit, Vite, Bootstrap, Responsive Web Design
Databases: MySQL, PostgreSQL, Database Design
AI / LLM: LangGraph, Groq LLM, AI Agent Development
Development Tools: Git, GitHub, Postman, VS Code, Netlify

PROFESSIONAL EXPERIENCE

Python Full-Stack Developer | Bdreamz Global Solutions Private Limited — Dec 2025 – May 2026

AI-First CRM – HCP Interaction Logging

Python, FastAPI, React.js, Redux Toolkit, Vite, LangGraph, Groq LLM, SQLAlchemy, PostgreSQL, MySQL

- Designed and built an AI-first CRM using LangGraph and Groq LLM to extract information from natural-language input, auto-populate forms and store interaction records.
- Developed the full-stack application using React.js, Redux Toolkit and Vite for the frontend and FastAPI with SQLAlchemy for the backend and database integration.
- Engineered five AI-agent tools for interaction logging/editing, history retrieval, follow-up suggestions and task scheduling.
- Implemented PostgreSQL/MySQL database integration using SQLAlchemy.

INTERNSHIP EXPERIENCE

DevOps Engineering Intern | Rooman Technologies Pvt. Ltd. — Nov 2024 – Mar 2025

- Gained practical exposure to CI/CD workflows, Git, Linux command-line operations, basic deployment activities and SDLC practices.

IoT Edge Node & Gateway Intern | Cranes Varsity — Aug 2023 – Oct 2023

- Worked on IoT device setup, configuration, monitoring and troubleshooting, with foundational exposure to edge computing.

PROJECTS

Signature Matching Application | *Python, OpenCV, SciPy, scikit-image*

- Built a Python application that compares two signature images, captured or uploaded, and displays both images on screen.
- Calculated the similarity between signatures using structural_similarity from scikit-image and showed the percentage match in a popup.

Smart Agriculture System | *HTML, CSS, JavaScript, React.js, IoT*

- Developed a farming-support platform combining web and IoT features, with an interface built in HTML, CSS, JavaScript and React.js.
- Designed an IoT-based soil-monitoring concept and integrated an AI-based query system.

EDUCATION

B.E., Computer Science | K.S. Institute of Technology (VTU), Bengaluru — 2025 | CGPA: 7.6

Diploma in Computer Science | Sri Krishna Polytechnic College — 2019 | PER: 88%

CERTIFICATIONS

- Python Full Stack Development – Besant Technologies
- DevOps Engineering Internship/Certification – Rooman Technologies
- IoT Edge Node & Gateway Internship/Certification – Cranes Varsity
- National Service Scheme (NSS) Certificate
